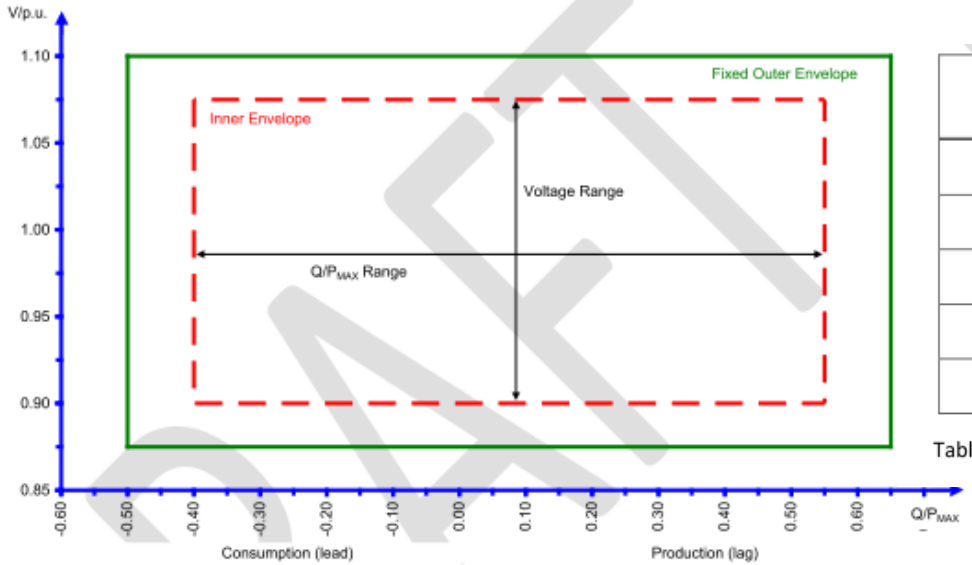
EUROMOT

NC Proposal on Q/Pmax Range & Voltage range.



Synchronous Area	Maximum range of Q/P_{max}	Maximum range of steady state voltage level in PU
Continental Europe	0.95	0.225
Nordic	0.95	0.150
Great Britain	0.95	0.100
Ireland	1.08	0.218
Baltic States	1.0	0.220

Table 6: Parameters for the inner envelope in figure 6
