

THIRD PARTY PROJECTS IN THE 2014 RELEASE OF THE TYNDP- General overview

Maarit Uusitalo
WG TYNDP Transparency Manager
ENTSO-E

Stakeholder workshop
20 November 2012, Brussels

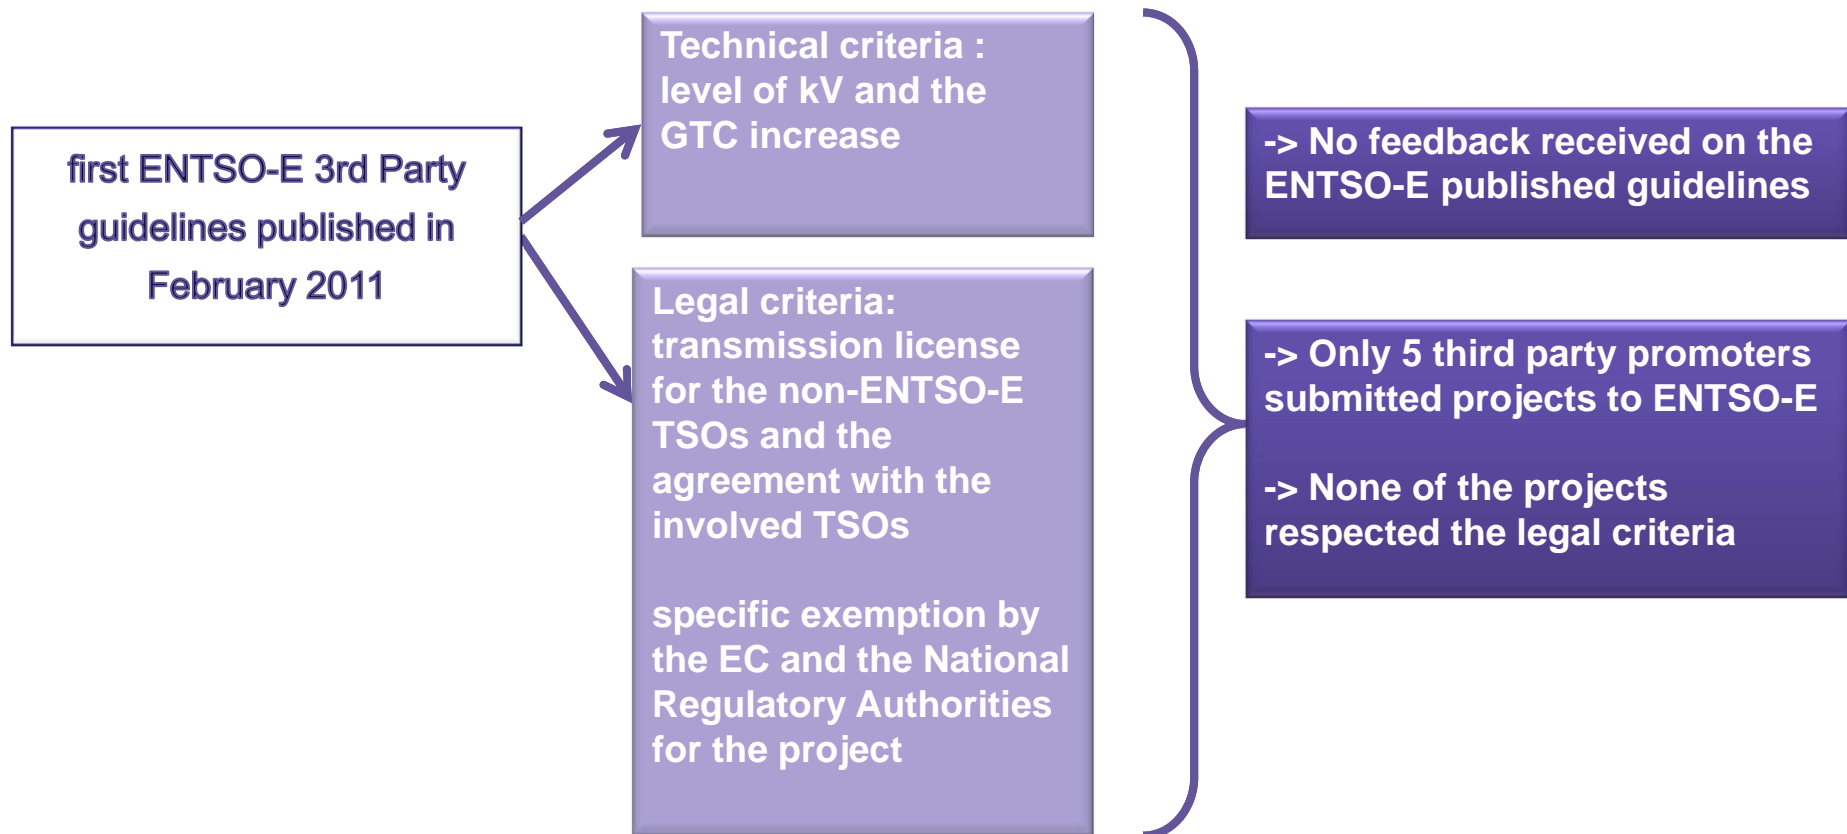

Why the 3rd party procedure from ENTSO-E

- Article 8(3) (b) of 714/2009 Regulation, ENTSO-E shall adopt “a non-binding Community-wide ten-year network development plan” (TYNDP) with the objective of ensuring greater transparency regarding the pan-European electricity transmission network and supporting decision making processes at regional and European level.
- Article 3(7) of the draft Regulation on guidelines for the implementation of trans-European energy infrastructure underlines the TYNDP as the base material for the selection of Projects of Common Interest (PCI)

1st ENTSO-E 3rd party guidelines for the TYNDP 2012

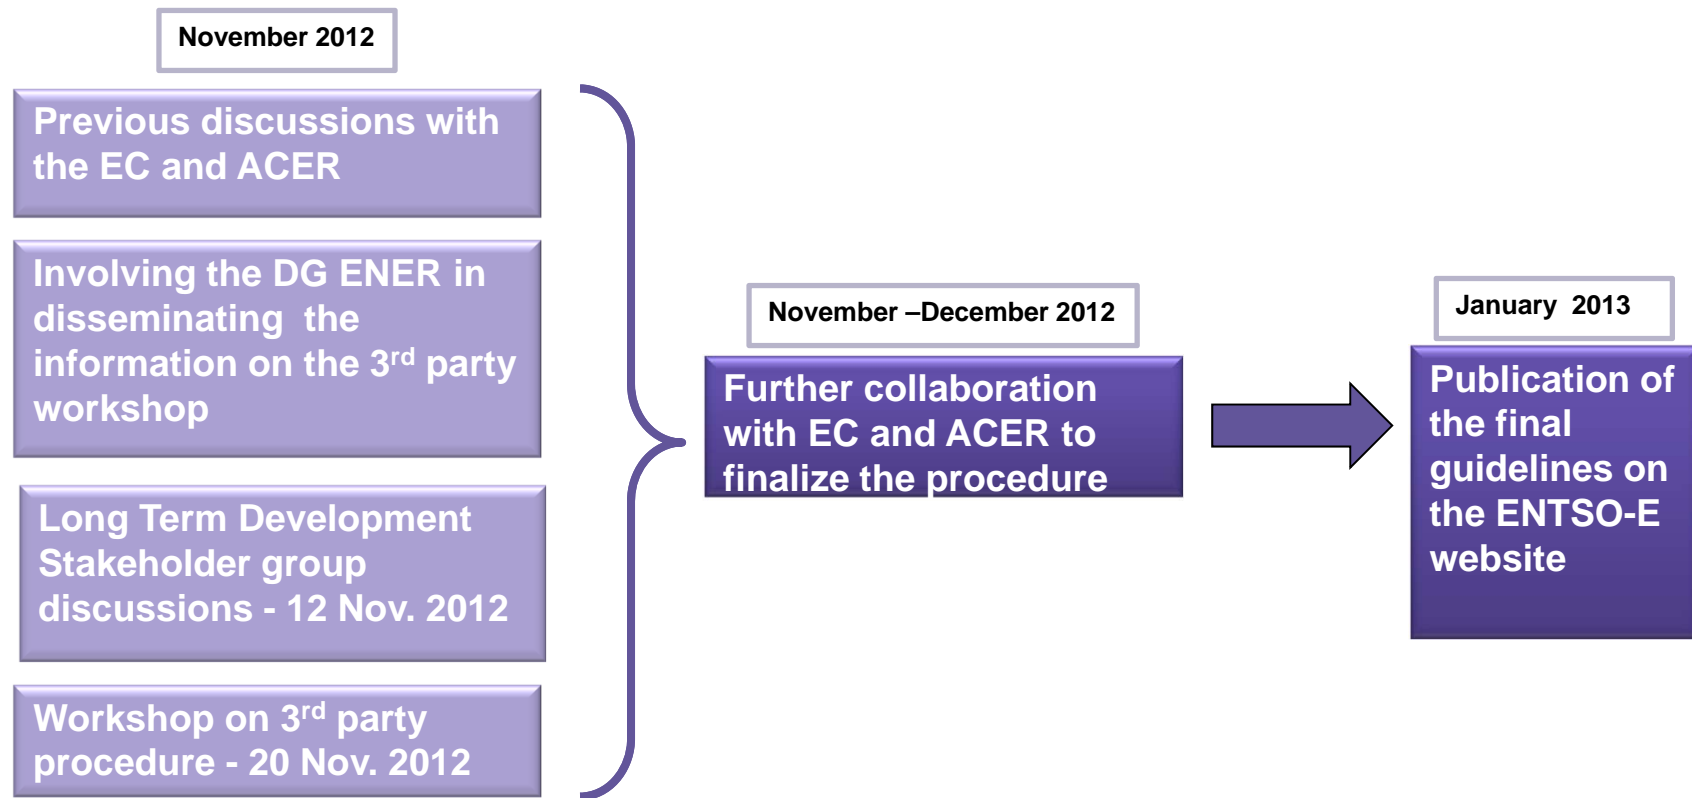

Results

ACER opinion on the 3rd party treatment in TYNDP

- “The Agency emphasises the importance of ensuring equal treatment of TSOs’ and the third-party’s projects. For this reason ENTSO-E should allow all third party projects to be included in the future TYNDPs, requiring third party projects to provide the same kind of market and grid studies as TSO projects and to provide sufficient level of detail with regard to capacity levels open to non-discriminatory third-party access.
- The Agency also encourages dissemination of the procedure to a wider audience to ensure that there is full transparency and stakeholder involvement throughout this process.

TYNDP 2014 – 3rd party procedure

New procedure for the 3rd party procedure – To whom it is addressed

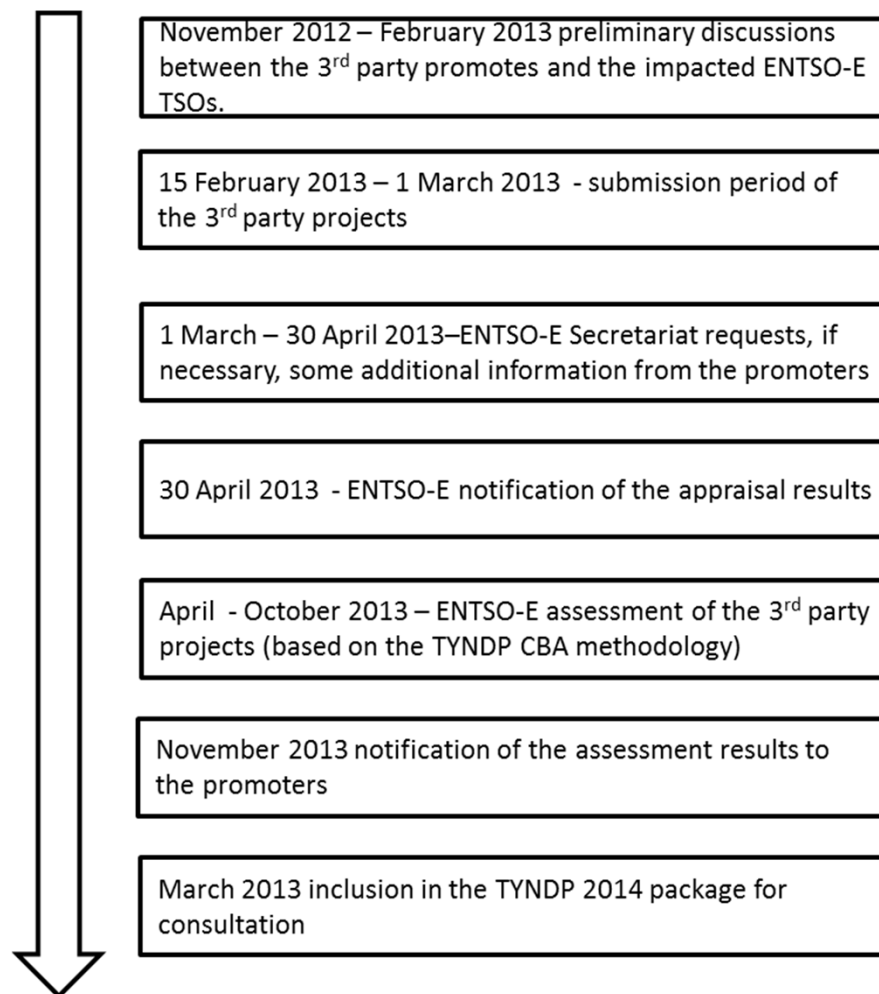

The 3rd party promoters can be categorized as follows:

1. Promoters within a regulated environment:

- TSO promoters (non-member of ENTSO-E) which own a transmission operating license from the National Regulatory Authority, or other responsible national Authority (e.g. Albania, Turkey, Russia or any other neighboring ENTSO-E countries' TSO)
- Other promoter which activates under the regulated environment (based on the contract signed with the NRA/s).

2. Promoters within a non-regulated environment: promoters of which investments are referred as “merchant lines” in accordance with Article 17 of EC Regulation 714/2009.

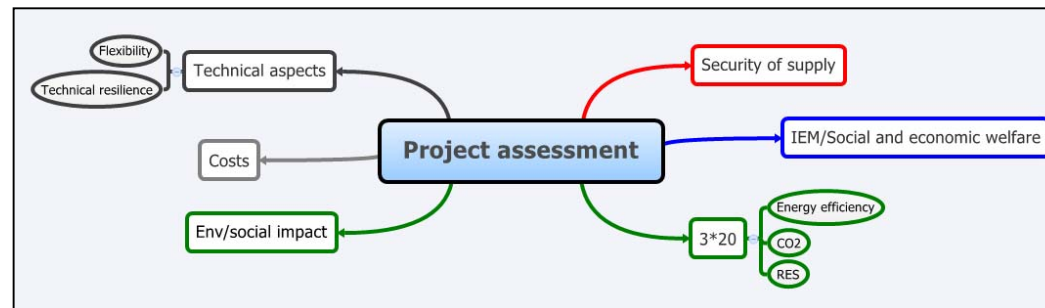

3rd party projects process

3rd party projects – the same process as for the TYNDP projects

2012

- Scenario elaboration & validation
 - Market studies
 - Network studies
- Project identification & valuation**

2014

- Reports compilation

Questions

ENTSO-E would like to receive feedback on:

The overall process of the 3rd party procedure

The timeline of the overall process

Possible impediments that a 3rd party promoter might have related to this procedure
