# 1. Importance

## Universal:

- No gaps, no overlaps in balance responsibility for each connection [Art 18 (6) (a)]
- Each injection and withdrawal (not being subject to TSO TSO settlement) [Art 44 (4)]
- All ISPs

## Financial:

- All BRPs shall be financially responsible for their imbalances [Art 18 (6) (c)]

## 2. Harmonisation

The rules defining the role of balancing service providers (BSPs) and the role of balance responsible parties (BRPs) ensure a fair, transparent and non-discriminatory approach [GLEB; Whereas (8)]

- What is in your opinion the objective of imbalance settlement harmonisation? (apart from complying to an obligation)
- What should in your opinion be harmonised/what should be left to national decision?
- What do you expect to be harmonised?

# 3. Change

- What should, in your opinion, be changed as a result of harmonisation proposal?
- What do you expect to be changed?
