➢ team composition: around 12 peoples, from pv/wind/synchronous machine/certifier/dso…

Activities

➢ 2 WG meetings, 1 Web conference

➢ Next web conf in 01/20

➢ Next meeting in 03/20

- **Issue**

Find a way thought one harmonised certification process to get an access to ENTSOE market for product

So 50549 will have to deal with:

- Certification process

- Certification body status in the ENTOSE area

- Unit Model Validation depending of the power range

- Harmonisation of Model transferability criteria

- Harmonisation of the short time synchronisation case
