

# Report on harmonisation of rules for suspension of market activities

MESC

# Report on assessing the level of harmonization of the rules for suspension and restoration of market activities

## Start of the process

- Tracking submission of deliverables to NRAs
  - Once there is enough national proposals approved by NRAs – start the work
  - Expected: ~~September 2019~~ – work has started (only 8 rules are approved so far)
- 

## Analysis

- The report aim at identifying the gaps and inconsistencies, and identify where there may be an opportunity for harmonisation.
- The report does not look for harmonization as a purpose itself, but provide an overview on the current situation including identification of areas where harmonization would be beneficial

## Main content of the rules

- Suspension of activities of Balancing/Ancillary Services Market
- Suspension of provision of cross-zonal capacity
- Suspension of Single Day Ahead Coupling/Single Intraday Coupling (SDAC/SIDC)

# Webinar

- ENTSO-E will prepare a webinar, with main topics:
  - General topic of suspension of market activities
  - Survey to be filled by TSOs
- Webinar will be held in the end February / beginning of March (exact date to be communicated in advance)
- Stakeholders will be informed on the webinar details through ENTSO-E website

# Tracking NRAs approval

Member states which have received the approval	Member states which have submitted the rules – not yet approved	Member states which have not submitted the rules
AT, CZ, FI, FR, HU, PL, SK, SE	BE, HR, DK, EE, DE, IE, NI, IT, LT, LI, LU, PT, SLO, ES, NL, GR, GB	

# Process

Selected 5 TSOs whose national rules should be translated to EN.  
(*end-Oct*)

Analyse the translated rules to identify key content

Draft template of key questions, for each TSO to answer in English.

Consult with stakeholders + adding received recommendations (webinar + MESC 2020)

Launch survey (fill in template)

Drafting the report (start Q2-2020)

Involve stakeholders on status updates (MESC, webinars..)

Final submission of the report : (Deadline Dec. 2020)

**Currently ongoing work**

**Thank you for your attention**
