Network Code on Electricity Balancing

ENTSO-E Public Stakeholder Workshop

17 July 2013

CECED expectations

- ☐ **Household appliances shall be able to participate in the balancing market.**
- ☐ **The market approach should be the governing rule.**

Balancing Code misfits with ACER Guidelines

- ❑ A call for tender is not enough to define common principles.
- ❑ Stakeholder involvement in writing balancing rules should be fair.

Balancing Code as a market-based instrument

- ☐ **Household appliances as a standardised balancing product in a single market.**
- ☐ **End users need a reason to participate in the balancing market.**
