

# ENTSO-E Public Workshop on NC HVDC

## Summary

**Brussels, 4 December 2013**

Reliable Sustainable Connected

# Next months

## Context

- Clarify how it links with operational codes
- Non-discriminatory treatment (not) in conflict with different treatment of users?

## Scope

- Functional capabilities on AC-side
- Be crystal clear on new/existing, derogation, retrospectivity

## Legal value of a NC

- Focus on what is in the code and what can be described in supporting documents
- Goal: leave no room for ambiguity

## Technical suggestions

- Clearly a lot of helpful suggestions are out there, which are much welcome now in the written consultation and during further discussions
